Lighthouse True North Testing Assessment™

"To get where you want to go, first you need to know where you are."

Do you have the people, process and tools in place to effectively track and measure your software development projects? Unfortunately, many IT departments regularly fall short of their goals because they lack a clear understanding of their capabilities and capacity.

The Lighthouse True North Testing Assessment™ provides a solid benchmark of your current testing department compared to industry standard best practices. We identify what you are doing well, where there are gaps, offer recommendations, and determine next steps. Further, we identify the expected results you will experience after implementing our recommendations.

"You can't manage what you don't measure."

We see what others don't.

What's Included

We work with you to understand where you think you are today and to determine specific areas you want us to focus on, including:

- *Problem tracking system*
- *Features to be tested*
- *Which metrics will be collected*
- *Test cases to be reused, test cases to be modified and test cases to be written*
- *Defect prediction*
- *Features not to be tested and why*
- *Testing schedule—test case sets, amount of time allowed, amount of regression test projected and when all fixes and testing will be complete*
- *Test Case Types that may be included:*
  - *Functionality*
  - *Performance*
  - *Regression*
  - *Stress*
  - *Security*
  - *Exception Handling*

- *Resource Requirements such as facilities, hardware, software, test data, test tools to be used, testing associates, documentation (requirements, requirements traceability matrix (RTM), design specifications or Sprint stories and/or epics)*
- *Entrance and Exit Criteria*
- *Test Case Content*
- *Test Reports*
- *Post Production Errors*
- *Problem Tracking Tool*

True North Assessment™ Expected Outcomes

Your expected outcomes are dependent on what we discover in the assessment—and what you implement based on the recommendations. Typically however, you can expect to see many, if not all, of these outcomes:

- **Reduced risk**
- **Reduced production defects**
- **Lower development costs/increased savings**
- **Established performance standards**
- **More focused team**

- **Improved quality and improved customer satisfaction**
- **Increased efficiency**
- **Reduce time to market**
- **Ability to operate with fewer staff**
- **Freed up SMEs**

Lighthouse Technologies offers this no-risk assessment because we are confident that we can save you countless man-hours and tens or hundreds of thousands of dollars depending on your testing program. That's why we offer a 100% money back guarantee if you are not completely satisfied with the True North Testing Assessment.

Ensure you're heading True North. Contact Us Today!
